FIELDS OF INTEREST EDUCATION Empirical Microeconomics, Labor Economics, Family Economics

University of Amsterdam Sept 2020 - July 2025 (expected)

PhD Economics

University of Michigan March 2024

Research visit invited by Basit Zafar

University of Pennsylvania Jan 2024 - Feb 2024

Research visit invited by Francesco Agostinelli

University of Amsterdam & Tinbergen Institute Sept 2018 - June 2020

MPhil Economics

Tilburg University Sept 2015 - June 2018

BSc Economics

Hong Kong University of Science and Technology Sept 2017 - Dec 2017

Exchange Semester

JOB MARKET PAPER Parenthood Timing and Gender Inequality

Abstract: I study how parenthood affects women's labor market outcomes and gender inequality, using quasi-experimental variation in the success of assisted conception procedures. I introduce a method for bounding the effects under minimal assumptions by leveraging women's complete assisted conception histories. The method simultaneously addresses selective fertility timing and timing-dependent effects. Using administrative Dutch data, I find sizable and persistent effects on women's work hours and income, which account for up to half of post-child gender inequality in these outcomes. I also disentangle and quantify how selective timing and timing-dependent effects bias conventional estimators, providing insight into the conflicting findings in the literature. My approach is applicable to other settings where individuals are quasi-experimentally assigned to one state but may enter others either through direct selection or by opting into quasi-experimental reassignment.
